

Sinclair Broadcasting's plan to use prime-time listening hours to air an anti-Kerry documentary days before the election violates the law that public airways should not be used for strictly partisan opinion. It is frightening that monied media can violate this law with impunity. Please don't let them get away with this. The media is so influential it really is our democracy that is at risk when large companies control the airwaves.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. Thank you.
